About

- PG-DAC graduate from C-DAC Hyderabad with a strong foundation in software development.
- Transitioned from Mechanical Engineering to IT with expertise in Java, C++, React.js, and databases.
- Knowledge of Data Structures, Algorithms, OOPs, and Cloud Computing.
- Strong analytical and problem-solving skills with hands-on experience in full-stack development.

Skills Summary

- **Front-End:** React.js, Node.js, Express.js, HTML, CSS, JavaScript
- **Back-End:** Spring Boot, .NET, C++, Web API, REST, PHP, Laravel
- **Databases:** MS SQL Server, MongoDB, MySQL
- **Tools:** IntelliJ, VSCode, Eclipse, Postman, Git, Redis

Experience

Intouch Consumer Care Solutions Pvt. Ltd. — Software Developer Pune (Onsite) Oct 2025 – Present

- Onsite Client: **Fashionking Brands Pvt. Ltd.** (brands: Cottonking, LinenKing, Tyzer).
- Contributing to modernization of legacy applications by migrating systems from Core PHP and Java 6 to the Laravel framework, improving scalability and maintainability.
- Involved in development and enhancement of ERP, POS, and online ordering platforms for enterprise operations.
- Designed and integrated RESTful APIs to enable seamless communication between business systems and third-party services.
- Implemented secure payment gateway integrations to support reliable and efficient transaction processing.
- Optimized application performance using Redis caching and backend performance tuning techniques.
- Collaborating with cross-functional teams to deliver scalable, high-performance, and maintainable software solutions.
- Responsible for debugging, code refactoring, and performance optimization to ensure system reliability and smooth operations.

Projects

- **Restaurant Management Platform** PG Diploma
 - Developed a web-based restaurant automation system using Spring Boot, React.js, and MongoDB.
 - Manages menu customization, KOT (Kitchen Order Ticket) handling, billing automation, and real-time order tracking.
 - Optimized backend API response time by 40%, enhancing system efficiency.
- **Human Capital Management System (HCMS)** PG Diploma
 - Built a role-based HR management platform with employee data management, payroll automation, leave tracking, and task assignment.
 - Implemented JWT authentication and secure role-based access to ensure security.
 - Developed real-time dashboards for HR and employees using React.js and Spring Boot.
- **Self-Charging Electric Vehicle Prototype** BE Mechanical
 - Designed a self-charging electric vehicle integrating solar panels and regenerative braking.
 - Used CATIA for 3D modeling and SolidWorks for performance simulation.
 - Improved battery efficiency and vehicle range through energy optimization techniques.

Education

C-DAC Hyderabad, India

Aug 2024 - Feb 2025

PG-DAC; 61%

RMD Sinhgad School of Engineering, Pune, India

Aug 2017 - Aug 2022

Bachelor of Engineering - Mechanical; GPA: 7.75

B.H. Chate School and Junior College, India

March 2017

Intermediate; 72.61%

Shankarrao Butte Patil Vidyalaya, Junnar, India

March 2015

Matriculation; 89.60%

Technical Certifications

- C Language - Phoenix InfoTech, Pune
- Python OOP - LinkedIn Learning
- C++ Language - EduComp Softech, Pune
- Java - EduComp Softech, Pune

Extra-Curricular Activities

- Mentor - Led Pune's largest Robotics and Automation workshop.
- Volunteer - Organized blood donation camp, raising over 50 pints.
- Social Welfare - Active in volunteering for handicapped students.
